Package includes:

- 12 complete electric engine sounds packs
- 12 fmod sound packs
- Acceleration and deceleration wav files for exterior and interior camera views
- 5 idle sounds, 5 wind noise sounds and 5 „static” sounds for both exterior and interior camera views.
- 184 wav files
- 184 cues

Idle Sound:

You can change the Idle Sound's clips in each fmod project or disable the idle sound fx.

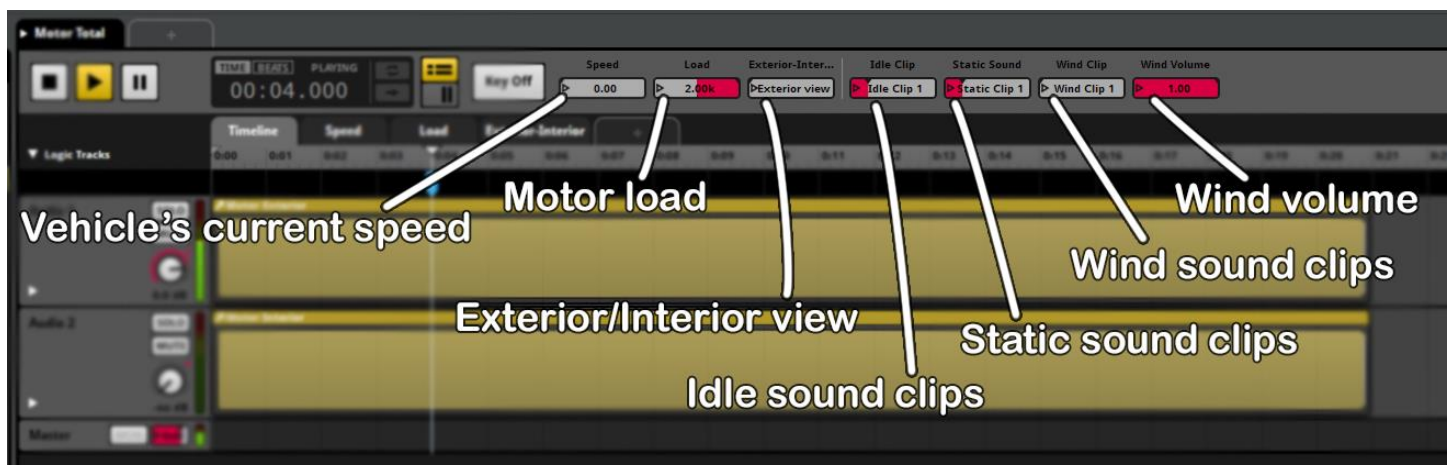

Static Sound:

Static audios pitch does not change only just the volume. You can edit the Static Sound's clip in each fmod project, or disable the static sound fx if you want to.

Wind Noise Audio Settings:

You can change the Wind Noise Sound's volume and sound clips in each fmod project. Wind sound fx is not designed to be turned off because it adds realism to the sound packs, but you can turn it's volume down of you don't want to use it.
