UI SFX
Mega Pack

By: Skril Studio

UI SFX

2682 wav files

**Mega Pack**

<u>Thank you for purchasing UI SFX Mega Pack!</u>

The most of these sound clips are categorized, but they may fit for other purposes too, some fit into multiple categories, that's why some categories have way more sound clips than others. Some sound clips fit perfectly for a voice of a robot character. Only your creativity is the limit how you going to use this sound pack.

Package includes:

- **2682 wav audio files**

Content explaination:

- **Buttons (799 wav files): the most of these were made by recording the sound of real physical buttons and ratling other things on a table. Some sound clips are a different variation of the same recording, they are edited in a way to sound differently. These sound clips fit into multiple categories.**

- **Cancel (200 wav files): these were made from some of the above mentioned real buttons. These sound clips fit perfectly for a „cancel", „decline" or „close" buttons.**

- **Extras (65 wav files): the most of these were made form an interference noise which I caused on purpose in my home studio. Other sound clips originaly was unwanted noises that I cut from some button sound clips, but I thought they sound cool and saved them for Extras sfx. Some of these sound clips are seamlessly looping.**

- **High_Pitched (780 wav files): these sound clips are a highly edited version of some sound clips from „Buttons" category. These sound clips are very usefull for multiple purposes, some clips could be even used as a character/robot voice.**

- **Ok (150 wav files): these sound clips are perfecr for an „Ok" or „Accept" button, but they can also fit for other purposes too.**

- **Purchase (270 wav files): these sound clips contain the sound of metal coins in multiple variations. They fit perfectly for that case when a user purchase something in your game.**

- **Repair (200 wav files): these sound clips contain the sounds of ratchet wrenches, hamer noises and drilling machines sound in multiple variations. They have singles and mixed together sound clips.**

- **Sliders (63 wav files): these sound clips are made for UI sliders, they sound like something is swiping, sliding. Some of these sound clips are seamlessly looping.**

- **Warning_Popup (155 wav files): these are made for a warning popup window or when a message popup in your game.**
