# City Car Sounds

By: Skril Studio

<u>Thank you for purchasing City Car Sounds!</u>

„City Car Sounds" asset does not contain any scripts, it only has audio files. It is an add-on sound pack made for „Realistic Engine Sounds 2" asset. For the best results use it with „Realistic Engine Sounds 2" which is a vehicle engine sound simulator asset.

Get *Realistic Engine Sounds 2* here: **https://fab.com/s/4ee4432da864**

Package includes:

- 5 complete engine sound packs (200 wav files):
  - o German 1250
  - o German 1700 CDTI
  - o German 1800 TFSI
  - o German 1900 TDI
  - o Japanese 1600
- 226 wav files (113 for exterior view and 113 for interior, first person view)
- 2 diesel turbo sound packs (26 wav files):
  - o Turbo CDTI
  - o Turbo TDI

Import the prefabs made for Realistic Engine Sounds 2

If you want to use this sound pack with **Realistic Engine Sounds 2** unity asset, import **RealisticEngineSounds_V2_Prefabs.unitypackage** into your project to get the prefabs made for *Realistic Engine Sounds 2.*

After importing the above mentioned .unitypackage, the new engine sound prefabs will be added in 3 different quality levels into the following folder: **CityCarSounds \Assets\Prefabs\ Prefabs**

6 demo scenes will be available in the following folder: **CityCarSounds\DemoScene**

Drag and drop one of the newly imported prefab into a vehicle physics compatibility prefab and you're ready to test these new sounds *(Realistic Engine Sounds 2 comes with pre-made compatibility made for some vehicle physic controllers).*

Importing *RealisticEngineSounds_V2_Prefabs.unitypackage* without *Realistic Engine Sounds 2* already being in your project will give errors in the newly imported prefabs.

Additional sound effects for Vehicles:

Here is a list of additional sound effects designed for vehicles. The included FMOD project already utilizes a sample from the most of these sound packs, simply swap the sound clips in the FMOD project with these to customize it to your needs:

Credits

I would like to say a *Thank You* to my friends and customers who let me record their vehicles or who sent to me their recordings of vehicle's engine sounds and other sounds.

Some sound clips are generated inside a daw using synthesers and other tools - without recording any real vehicle sounds.

Send your own recordings to me and I will turn them into complete engine sound packs. These recordings should be good quality videos / audios without wind and other unwanted background noises (like crowd, people talk, etc). These new sound packs may later appear in new add-on sound packs. You will get a free copy of the finished work if your recordings got used for the making of new sound pack(s).

Feel free to contact me if you have any questions or suggestions for this asset.

Please write a review for this asset in the store. Thank you!
