

Gear Shifting Sounds

By: Skril Studio

Thank you for purchasing Gear Shifting Sounds!

This sound pack also included in the following assets:

Realistic Engine Sounds 2 – Pro Edition: <https://fab.com/s/4ee4432da864>

In other RES2 editions only a few audio clips are included just for demonstration.

Package includes:

- 83 wav files for regular shifting sound
- 27 wav files for tiptronic shifting sound
- Altogether 110 wav audio files

Sound clips usage explaining:

Play „one shot” randomly from some of these sound clips when gears are changed in your vehicles.

Import the prefabs made for Realistic Engine Sounds 2

If you want to use this sound pack with **Realistic Engine Sounds 2** unity asset, import ***RES2_Shifting.unitypackage*** into your project to get the prefabs and gear shifting sound controller script made for *Realistic Engine Sounds 2*.

Drag and drop one of the newly imported prefab into a RES2 engine sound prefab.

Importing the *unitypackage* without *Realistic Engine Sounds 2* already being in your project will give errors in the newly imported prefabs.

Credits

I would like to say a ***Thank You*** to my friends and customers who let me record their vehicles or who sent to me their recordings of vehicle's engine sounds and other sounds.

Send your own recordings to me and I will turn them into complete engine sound packs. These recordings should be good quality videos / audios without wind and other unwanted background noises (like crowd, people talk, etc). These new sound packs may later appear in new add-on sound packs. You will get a free copy of the finished work only if your recordings got used for the making of new sound pack(s).

Feel free to contact me if you have any questions or suggestions for this asset.

Please write a review for this asset in the store. Thank you!
